

Assignment #1

WEBD213 – Motion Graphics II

Game Design Trivia

Complete the following interactive exercises and create a trivia question out of one piece of important information.

Using Cocos2D HTML5, create a simple app that displays a trivia question with multiple-choice answers. Allow the user to click each of the answers to receive feedback on their answer.

- Understanding Games Episodes 1 - 4

Date Due

September 26, 2013 at 11:59PM EST

Submission

Send an email to jlapeгна@gmail.com with the following information.

1. A link to a working version of your game hosted on your web server.
(note: I'll be testing the game in Chrome (latest version) on Mac OS X)
2. A .zip file of all your source code for the assignment uploaded through Blackboard.
